Attachments: SRST WQS regs.doc

Hi Mary, as a follow-up to our discussion about MHA's consideration of adding cultural uses to the Tribe's water quality standards, and monitoring for *E. coli* at swimming or recreational areas to protect the health of individuals engaging in full immersion activities associated with cultural or ceremonial uses, attached FYI is Standing Rock Sioux Tribe's draft WQS (with my comments from a couple years ago).

The definition for full contact recreation is on p. 3, and criteria for full contact rec are on p. 7.

"Ceremonial and religious water use" is defined on p. 1 and cultural uses are cited on p. 18 under "Outstanding Tribal Resource Waters."

Thanks. I hope this information is helpful. Please let me know if there's anything else that you need.
